Why not drive a motor directly off the solar panel? I don't know if it'll work, but I can't see why not - so I'll be giving it a try. (currently the voltage from the solar panel is not enough to drive the MOSFET I'm using reliably - I'll try alternatives and adjustments) How fast do you want them spinning? Probably not that fast. I'm talking a ...

Hello Everybody, I have been struggling to find Fritzing drawings for three modules I use in my project (a small, solar powered metal detecting robot). I have just found the solar charge module that looks OK I think (I need to double check the pin spacing). That's in the Fritzing forums. I also contacted a Japanese organisation who seem to have the MX1508 H ...

Which appears to be the original charger. You need to use google to search for Fritzing parts. Typically a search for "fritzing part BQ24074" which has this web page as the first hit, will find the part. In Adafruit's case reading their excellent web pages looking in technical details for references to Fritzing parts is also a good bet. Peter

In many countries, including Somalia, excessive reliance on fossil fuels is a serious concern.
