The South Sandwich Islands (Spanish: Islas Sandwich del Sur) are a chain of uninhabited volcanic islands in the South Atlantic Ocean. They are administered as part of the British Overseas Territory of South Georgia and the South Sandwich Islands. The chain lies in the sub-Antarctic region, about 700 kilometres (430 mi) southeast of South Georgia and 1,700 kilometres (1,100 ...

In January 1775 Captain James Cook, in the ship Resolution discovered the Isle of Georgia, which he had named in honour of King George III. It soon became known as South Georgia. Likewise, the neighbouring Sandwich Lands, which he named in honour of the Earl of Sandwich, First Lord of the Admiralty, became known as the South Sandwich Islands.

The marine protected area (MPA) for South Georgia and South Sandwich Islands is subject to scientific review every five years to gauge effectiveness and incorporate the most up-to-date research and data. This is the second such review, and protections have been strengthened each time.
