

Koyosonic, a good supplier in power solution, has been specialized in developing and producing Lead-acid batteries, Li-ion batteries, Solar Items and Battery Chargers since 1999. As one of professional manufacturers, we have been devoted to research and development, manufacture and market to lead users to have right batteries for right power system.

Solid Inter-Cell, Through-The-Partition connectors deliver far less internal resistance for more usable power during critical operating conditions. 5. Performance-oriented venting system provides superior corrosion protection through effective fume dissipation while the high strength polypropylene casing endures knocks, impact and vibration ...

&quot;Standby Use&quot; - back up power: Standby Use is mainly used for emergency power to avoid future damage that may be caused by a sudden power outage. 2. What are the concerns when using Sunnyway batteries in a parallel or a serial series? 1). Do not mix brands, models and date codes? 2). No separate discharge then charging in a serial configuration.

High Power Density.Thick Plates and High-density Active Material. Longer Life in Deep Cycle Applications. Excellent Recovery from Deep Discharge. Good internal water cycling: based on the oxygen compound principle, little gas generated & little water depletion. Excellent discharge characteristics: low internal resistance, compact, excellent ...
