

Is South Sudan a landlocked country?

South Sudan (/suːˈdʒːn, -ˈdʒʌn/), officially the Republic of South Sudan, is a landlocked country in East Africa. It is bordered on the north by Sudan; on the east by Ethiopia; on the south by the Democratic Republic of the Congo, Uganda and Kenya; and on the west by Central African Republic.

Does South Sudan have an Inc?

Parties that are least developed countries, such as South Sudan, may make their INC at their discretion. In 2003, Sudan submitted its INC which included the South Sudan region, as it had not yet gained independence. However, since then, no inventory for South Sudan has been separately prepared or submitted.

Why is South Sudan so fragile?

With more than 50 per cent of the population living below the national poverty line, a weak economy and ongoing political conflict, South Sudan also ranks among the most fragile states in the world.

Is South Sudan an LDC?

South Sudan is an LDC and the world's newest nation, which gained independence from Sudan in 2011. Although South Sudan has large base of natural resources other than oil, most of which are untapped, it remains relatively undeveloped and is characterized by a subsistence economy.

How resilient is South Sudan?

WFP has categorized most parts of South Sudan as having between poor and low resilience, considering a combination of access to a diversity of income and food sources, low inter-communal and political conflicts, relative low food insecurity levels, relatively good access to markets and economic centres.

What challenges does South Sudan face?

South Sudan has a double challenge of dealing with more than 50 years of conflict and continued instability, along with huge development needs. It has vast and largely untapped natural resources and is the most oil-dependent country in the world, with oil accounting for almost the totality of exports, and around 60 per cent of its GDP.
