

Is solar power a problem in Spain?

Spain had emerged in 2010 as the world leader in concentrated solar power but soon saw other countries catching up and overtaking them. Since then the situation has in fact got worse for those relying on solar energy in Spain.

What is a powersafe OPzS battery?

The EnerSys®; PowerSafe®; OPzS battery range is designed for use in all power applications where the highest levels of reliability and safety are required. PowerSafe OPzS cells benefit from an optimized plate design that results in increased capacity compared to the requirements of the internationally recognized DIN standard.

What is a powersafe TS battery?

PowerSafe®; TS batteries are single cells that deliver high performance, long life solutions for renewable energy applications. Combining vented technology and tubular positive plate design, PowerSafe TS batteries are ideal for solar energy installations that require reliable back-up power after sunset or during periods of reduced sunshine.
