

What is spear power systems?

Spear Power Systems is at the forefront of providing advanced energy storage solutions designed to operate in harsh environments. With a potent blend of performance, reliability, and safety, our batteries provide optimized solutions for mission critical applications.

Who owns spear power systems?

The company has a wide range of energy storage systems suited to meet any demand. Their family of TRIDENT maritime batteries offers multiple cell chemistries in Spear Power Systems was acquired by Sensata Technologies on Aug 23, 2021. Where is Spear Power Systems 's headquarters?

What makes spear a good company?

Spear was formed in 2013 as a spin-off of Dow Kokam's defense and industrial operations. Introduced Spear's G1 chemistry agnostic, scalable BMS (sBMS). Spear receives ISO9001 and AS9100 certification. Introduced Trident brand high-voltage, scalable COTS battery system for propulsion power.

Key components in each system are the scalable Modules (sMOD) and scalable Battery Management System (sBMS). The sMOD provides a common building block for our systems. Versa systems can be scaled from 50 VDC to 1250 VDC and are available in both air-cooled and liquid-cooled options. PERFORMANCE o 103 Wh / kg o 227 W / kg o 76 Wh / L

Global Syndicate Invests in Advanced Battery Innovator Spear Power Systems - Spear Power Systems GRANDVIEW, Mo., September 23rd, 2019 - Spear Power Systems, Inc. (Spear) raised growth capital from a global syndicate of advanced energy investors to fund expansion of the battery maker's global...

Spear Power Systems is headquartered in Grandview, MO. What is the size of Spear Power Systems? Spear Power Systems has 61 total employees. What industry is Spear Power Systems in? Spear Power Systems's primary industry is Electronic Equipment and Instruments. Is Spear Power Systems a private or public company? Spear Power Systems is a ...

Kansas City, MO, November 30, 2021 - Spear Power Systems, Inc. announced the signing of a multi-year agreement with Blue Origin, the space company with the vision of enabling a future where millions of people are living and working in space to benefit Earth. The agreement will provide Blue Origin with a reliable domestic supply [...]

The acquisition of Spear Power Systems advances Sensata's electrification portfolio and strategy into new clean energy markets. "We are pleased that the talented Spear Power Systems team, including over 40 highly experienced engineers, will be joining Sensata," said Vineet Nargolwala, Executive Vice President, Sensing Solutions at Sensata Technologies.

Spear Power Systems | 3,186 followers on LinkedIn. "Safe. Agile. Intelligent." | Spear Power Systems designs and manufactures advanced lithium-ion energy storage systems for aerospace, defense, industrial, and marine applications.

GRANDVIEW, Mo., September 23rd, 2019 - Spear Power Systems, Inc. (Spear) raised growth capital from a global syndicate of advanced energy investors to fund expansion of the battery maker's global footprint, production capacity, and continued research and development. The round was led by Emerald Technology...

Grandview, MO (August 2018): Spear Power Systems LLC (Spear) has been awarded a Phase I SBIR contract to address the Army's requirement for a battery system that can support multiple voltages, avoiding the need for multiple fielded batteries to address multiple voltage requirements. The objective of this battery is to address legacy platforms, as well as emerging platforms ...

Spear Power Systems Inc., a leader in the development and production of advanced energy storage solutions for demanding applications in a variety of defence/aerospace and industrial applications has entered into an agreement to be acquired by Sensata Technologies (NYSE: ST), a leading industrial technology company and provider of sensor-rich ...

Key components in each system are the scalable Modules (sMOD) and calable Battery Management System (sBMS). The sMOD provides a common building block for our systems. Versa systems can be scaled from 50 VDC to 1250 VDC and are available in both air -cooled and liquid-cooled options. PERFORMANCE o 107 Wh / kg o 235 W / kg o 90 Wh / L
