

During his Budget Address 2020 Thursday, Prime Minister, Dr. the Honourable Timothy Harris, said the government of St. Kitts and Nevis, in collaboration with The St. Kitts Electricity Company Limited (SKELEC), will facilitate the construction of the largest solar generation and energy storage project in the Caribbean after signing an agreement with ...

Basseterre, St. Kitts, December 10, 2020 (SKNIS): The official ground-breaking ceremony of the Basseterre Valley Solar and Storage Project for a 35-megawatt solar energy plant and the 45 megawatt-hour battery storage ...

Leclanché, Solrid, and MPC Energy Solutions began construction on a solar-plus-storage project in St. Kitts and Nevis. The project involves pairing a 35.6 MW solar PV ...

4 December 2023; News; BASSETERRE, SAINT KITTS, November 29, 2023 (Press Secretary): The Government of Saint Kitts and Nevis and the St. Kitts Electricity Company Ltd (SKELEC) have executed an Amended Power Purchase Agreement (PPA) with project developer SOLEC Power Ltd for the largest solar PV and battery energy storage project in the Caribbean.

The project will provide the island of St Kitts with 35.7 MWp of solar capacity representing 30 - 35% of the annual electricity demand and 43.6 MWh of battery storage ; The landmark infrastructure project will replace over ...

BASSETERRE, St Kitts and Nevis and YVERDON-LES-BAINS, Switzerland, December 10, 2020 - The Government of St. Kitts and Nevis, the state-owned St. Kitts Electric Company (SKELEC) and Leclanché; ...

BASSETERRE, St. Kitts and Nevis and YVERDON-LES-BAINS, Switzerland, 4 th December, 2023 - Leclanché; SA, one of the world's leading energy storage companies, will provide the island of St. Kitts with 35.7 MW of solar capacity and 43.6 MWh of battery storage. The Government of St. Kitts and Nevis, along with SKELEC, the state-owned St. Kitts ...

By SKNIS, Basseterre, St. Kitts, December 10, 2020 (SKNIS): The official ground-breaking ceremony of the Basseterre Valley Solar and Storage Project for a 35-megawatt solar energy plant and the 45 megawatt-hour battery storage facility, was witnessed on Thursday, December 10, making the establishment of the largest solar plant in the Caribbean one step ...

Leclanche to build largest Caribbean solar-plus-storage plant. ... own and operate a 35.6-MW solar plant coupled with a 44.2-MWh battery storage system on the island of Saint Kitts. Leclanche will be the prime

engineering, procurement and construction (EPC) contractor and will build the facilities on land in the Basseterre Valley, near the City ...

St. Kitts and Nevis will add a utility-scale solar and storage plant to meet one quarter of its electricity needs. The 35.6MW solar park and 44.2MWh battery storage facility will be built and operated by Leclanché, a Swiss firm acting as EPC contractor. This project is an example of the bold thinking and actions being undertaken [...]

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, and reduce dependence on fossil fuels. While the exact battery chemistry in use has not been specified, the emphasis on BESS suggests a likely reliance on lithium-ion technology, which is ...

St Kitts and Nevis: The ground-breaking formal function of the Basseterre Valley Solar and Storage Project for a 35-megawatt solar energy plant and the 45 megawatt-hour battery storage plant, was observed on Thursday, December 10, creating the institution of the largest solar plant in the whole Caribbean region one step closer to being understood.

This project makes St. Kitts a global pioneer in the integration of renewable energies," said Konris Maynard, Minister of Energy and Infrastructure of St. Kitts and Nevis. Sun replaces diesel. With the signing of the PPA and other documents, construction of the plant is expected to begin in the second quarter of 2024.

Generation and Energy Storage Project The largest solar generation plus energy storage project ever to be built in the Caribbean has been announced and is in the final stages of approval by the Government of St. Kitts and Nevis. The 35.6 MW solar energy plant and 44.2 MWh battery storage facility will provide between 25-30%

Construction has begun on a solar-plus-storage project on the Caribbean island of St. Kitts & Nevis, backed by Leclanché, Solrid and MPC Energy Solutions. The launch of the SOLEC power plant is nearly 18 months ...

On successful completion of this fully integrated solar photovoltaic system and a lithium-ion battery energy storage system (BESS), the facility will supply Saint Kitts with 30% to 35% of consumers" annual electricity ...
