Sun King now accounts for 38% of total industry-wide PAYG solar revenue according to the latest data collected by GOGLA, the global association for the off-grid solar energy industry. As a result of Sun King's growth, the company has eliminated 22 million tons of carbon dioxide emissions while saving consumers \$4.4 billion in energy costs.

Sun King has developed a customised solar solution for BEFIT, involving solar panels on roofs and solar inverters and accompanying batteries in secure rooms in school facilities. Sun King's solar solutions can be turned off remotely to counter theft. The company maintains an expansive and growing network of trained solar professionals in Malawi.
