

What is the largest Bess project in Sweden?

The 1-hour duration BESS project, called Isbillen Power Reserve, will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power.

How many MW of Bess is coming to Sweden this year?

Some 200MW of grid-scale BESS is set to come online in Sweden this year according to Flextools, including a 20MW project deployed by Alfen at a wind farm operated by Vasa Vind, announced last week. Energy-Storage.news' publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024.

Which large-scale Bess projects are coming to Sweden in 2024?

That announcement coincided with two large-scale BESS in Sweden being progressed by their owners. IPP Ilmatar now has a 50MW PV, 20MW BESS in Knihult fully permitted to start construction in 2024 while developer SENS has signed a land lease in Hallsberg for a 50MW, earlier-stage project.

Where will a Bess power plant be built?

It will be connected to the 130kV grid area operated by distribution system operator (DSO) E.ON Energidistribution. Nidec will provide the BESS which it will manufacture and assemble in France while the inverters will be built in Italy. More than "half of the value of the project" will be of European origin, Neoen said.

What is Isbillen Bess?

The Isbillen BESS will mainly provide ancillary services, specifically Frequency Containment Reserve, to Swedish transmission system operator (TSO) Svenska Kraftnät. It will be connected to the 130kV grid area operated by distribution system operator (DSO) E.ON Energidistribution.

Where is Isbillen Bess located?

Isbillen is located in Västernorrland, just 6km from another Neoen BESS, the 52MW/52MWh Storen Power Reserve, which has nearly been completed, the firm said. The Isbillen BESS will mainly provide ancillary services, specifically Frequency Containment Reserve, to Swedish transmission system operator (TSO) Svenska Kraftnät.
