

What is Sweetwater Energy?

Sweetwater Energy | 2,508 followers on LinkedIn. Green no longer comes at a premium | Sweetwater Energy's Sunburst technology is a disruptive platform technology that enables the biorefinery. We fully deconstruct biomass in 20 seconds, providing clean platform sugars, clean lignin and Microcrystalline Cellulose (MCC) through various pathways.

What is Sweetwater Energy's sunburst technology?

Sweetwater Energy's Sunburst technology is a disruptive platform technology that enables the biorefinery. We fully deconstruct biomass in 20 seconds, providing clean platform sugars, clean lignin and Microcrystalline Cellulose (MCC) through various pathways. Finally, we can deploy a "whole-barrel" approach to lignocellulosics.

Can Sweetwater Energy replace petroleum?

Sweetwater Energy is looking to change that. The Rochester, New York company has developed a technology that can break down biomass in under 20 seconds and the resulting materials can replace petroleum in a slew of everyday items, says Jack Baron, Sweetwater's president.

Who owns Sweetwater Energy?

Jerry Horton and Jack Baron are the founders of Sweetwater Energy. Where is Sweetwater Energy headquartered? Sweetwater Energy is headquartered in Rochester, NY. What is the size of Sweetwater Energy? Sweetwater Energy has 18 total employees. What industry is Sweetwater Energy in?
