Redux Energy is the Swiss energy storage specialist company focused on the development, engineering, design, production and servicing of the safest lithium batteries on the market (LiFePO₄), made in Switzerland. ... Each application can be secured by an application-specific Battery Management System (BMS), in order to ensure optimal operation ...

Instead of using chemicals as in a conventional battery, the building uses gravity to store energy. Experts call this a Gravity Energy Storage System (GESS) and it is seen as a potential game changer for clean energy systems. The basic idea is that when there is a surplus of renewable energy from the wind and sun, it is used to lift blocks weighing several tonnes.

Switzerland battery storage for solar system
