Timor-Leste has three telcos - Timor Telecom, Telkomcel and Telemor - which jointly provide 98% national coverage with their mobile infrastructure. All three launched LTE services during 2019, and this has resulted in a rapid increase in mobile broadband penetration, driven by a rising proportion of mobile subscribers

having smartphones.

The extension of telecom networks to accommodate the rapid growth in mobile computing as well as to provide high speed data access has led to a proliferation of outside plant telecom cabinets. The thermal characteristics of the equipment used in outside plant cabinets are such that cabinet cooling is necessary to limit internal temperatures.
