

What is the enerbrain system?

The Enerbrain System is an IoT solution based on innovative algorithms and AI, resulting in high energy savings and better indoor comfort levels for our customers. This innovation ensures 20% energy savings, lower CO2 emissions and improved comfort thanks to a unique IoT solution powered by AI coupled with fuzzy logic cloud algorithms.

Does enerbrain offer a system integration service?

Enerbrain also offers a system integration service which allows business insight and supports better informed decision making and lower operational costs. Enerbrain's System can turn energy-wasteful non-residential buildings into smarter, healthier and more sustainable ones.

Why should you choose enerbrain?

Enerbrain was created to reduce the energy consumption of heating, ventilation and air conditioning (HVAC) systems through smart hardware, Cloud solutions and IoT technologies. Why choose Enerbrain? Average savings of about 12 to 30 percent with HVAC Optimization service. By optimizing HVAC systems, it is possible to pay back the expense quickly.

Who is Hendo enerbrain?

MKSE - Co. En - Futura Smart Grid - AC Controls - Versatec - Gruppo clima - Hendo Enerbrain was born with a challenging goal: to leave a positive impact on the planet. Learn more about us!

What can enerbrain do for You?

Enerbrain has created a complete solution with independent modules for the real time monitoring of environmental data, controlling and implementing the components of the HVAC system, sending data, and remote building management. Our IoT technology products for system component control, communication, and remote building management.
