The Solar Rating & Certification Corporation (ICC-SRCC(TM)) is the leading certifier and standard developer for solar heating & cooling products in North America. Our certifications are designed to help manufacturers comply with building code, regulatory, and incentive program requirements in the United States, Canada, Mexico and the Caribbean ...

Directory of OG-400 Solar Pool Heater Certifications NOTICE: The OG-400 certification program has transitioned to listings to the ICC 902/PHTA 902/SRCC 400 standard. Please see the SRCC Listing Directory for all listings of solar pool heating systems to this standard.

What is the SRCC? The Solar Rating and Certification Corporation (SRCC) is an independent, non-profit organization providing certifications and ratings for solar thermal products and systems. Founded in 1980, SRCC has become a trusted authority in the solar industry, ensuring that solar thermal technologies meet stringent performance and quality standards.

SOLERGY Eco-Label for Solar Thermal Collectors in North America SRCC now offers the voluntary SOLERGY collector label for North America for qualifying solar thermal collectors with OG-100 certifications. The innovative and consumer friendly SOLERGY label has been available for locations in the EU since 2016. The design originated with the European Energy Label ...

OG-100 certification covers solar thermal collectors, and requires compliance with the ICC 901/SRCC 100 Solar Thermal Collector Standard. OG-100 certification requires testing in an accredited testing laboratory to assess the safety, durability and thermal performance of each collector. OG-300 certification addresses solar thermal systems (complete solar water heaters) ...

Overview of SUEF Metric The Solar Uniform Energy Factor (SUEF) Specification for domestic solar water heaters was created in late 2020 by a diverse group of stakeholders. It provides a method to determine a Uniform Energy Factor (UEF) value to compare the performance of solar water heaters with other water heater types on a consistent [...]

The following testing laboratories are recognized by ICC-SRCC to conduct testing to the standards listed for ICC-SRCC certification and listing programs. Recognized Testing Laboratories must comply with ICC-SRCC's requirements for quality management, testing competency and customer service and are evaluated annually. Manufacturers requiring ...

During inspections the inspector will confirm the compliance of the Quality Management System, check for changes to the design of the product, and verify program requirements (like product labeling). Quality: Inspectors will review the Quality Management System implementation for topics that include: Design: Inspectors will check to confirm that design control measures are ...

ICC-SRCC maintains compliance assessment marks for its accredited programs. Listees with current certifications and listings are authorized to display them on marketing materials, websites, and product labels. This webpage summarizes ICC-SRCC's marks and how they may be used. These requirements are also summarized in the Usage Guide for ICC-SRCC Marks. Certified ...

Thank you for your interest in the Solar Rating & Certification Corporation's certifications and listings for solar heating and cooling products! Whether you are a domestic manufacturer or an international company exporting to North ...
