Trinidad and Tobago's transition to renewable energy was given a boost today with the announcement of the 12 finalist sites chosen to receive installations of small-scale roof-mounted Solar Photovoltaic (PV) solar panels, capable of supplying energy for power generation. The announcement was made by

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.
