However, the future will bring more variety and Peninsula's pledge is to keep energy flowing to our customers." Peninsula has also launched a new website - The site is a complete re-vamp of content and represents the company, more accurately, as a marine energy provider. The inclusion of "360" is a recognition of ...

POWER TUNISIA. A Private Sector Program for Energy Transition in Tunisia. In 2022, 98.1% of Tunisia's electricity was derived from natural gas, two-thirds of which was imported from Algeria, making Tunisia especially vulnerable to the volatility of international oil and gas price shocks.

Through its proprietary Cargo Procurement Department, Peninsula is able to source its own oil for its physical port locations. Peninsula buys on a delivered basis or via chartering its own vessels, so as to move the oil from the refinery to its terminals, where it handles the operation in-house, in order to have the product ready to be dispatched to end users.

The company, which boasts a presence in over 40 countries and generates nearly 600,000 jobs globally, is keen to contribute to Tunisia's clean energy push. Their representatives also highlighted BYD's expertise in

developing smart renewable energy solutions, hinting at a potentially broader scope of collaboration.
