

We're an award-winning solar energy company serving The U.S. Virgin Islands with a passion for clean, affordable energy. We offer a variety of renewable energy products for every home, every business, and every budget. Our team of solar energy professionals has over a decade of experience serving the people of the USVI and can tackle any clean energy challenge.

Two more island renewable energy microgrid projects were announced June 22, one on the Dutch island of Aruba and another on St. Croix, the easternmost of the US Virgin Islands. St. Croix Commercial Facility Goes Green

Virgin Islands Energy Office . Solar For All Initial Overview ... Microgrid/Community Solar projects and associated energy storage solutions. ... Please let us know if you have any questions our team will be happy to assist. info@eo.vi.gov (340) 713-VIEO . St. Thomas Office

Two more island renewable energy microgrid projects were announced June 22, one on the Dutch island of Aruba and another on St. Croix, the easternmost of the US Virgin Islands. St. Croix Commercial Facility Goes ...

Solarize St. Thomas is a public-private coalition consisting of the Coalition for Solar Affordability including Virgin Islands Energy Office, UVI's Caribbean Green Technology Center, Rotary Club of St. Thomas East ECO, Environmental Association of St. Thomas-St. John, Virgin Islands Conservation Society, VI Electric Vehicle Assoc.-North, and Solar Crowdsourc.

The month of December in U.S. Virgin Islands experiences rapidly decreasing cloud cover, with the percentage of time that the sky is overcast or mostly cloudy decreasing from 33% to 20%.. The clearest day of the month is December 31, ...

The Virgin Islands Energy Office's successful selection of its Solar for All application has presented a historic opportunity for the territory to fast-track an equitable energy transition that ...

The U.S. Virgin Islands (USVI), part of the Leeward Islands of the Lesser Antilles, became a U.S. territory in 1917 and is located in the Caribbean Sea, about 1,100 miles southeast of Miami, Florida. 1,2 The USVI has no fossil energy reserves, but does have some renewable resources, particularly solar energy. 3,4,5 The USVI imports petroleum products to ...

Honeywell will supply VIElectron, its first installation of battery energy storage solutions (BESS) for six solar parks located across the US Virgin Islands. The BESS, which is for a capacity of 124 MWh, will boast an end-to-end battery management system (BMS). The solar array of 140 MWDC and BESS will help the islands

meet 30% of energy consumption by way ...

Effective Nov. 8, the Virgin Islands Energy Office overhauled the Virgin Islands Energy Storage (VIBES) program, opening up the application specifications to allow for larger battery systems to participate. VIBES is all about keeping the lights on, even when a storm or other event causes electrical service in the territory to be disrupted.

DOE and NREL technical experts worked with the Virgin Islands Water and Power Authority (WAPA) Office, the Virgin Islands Energy Office, and other USVI stakeholders to identify the best combination of wind, solar, waste-to-energy, ...

Since then, the U.S. Virgin Islands have set a goal to reduce its dependence on fossil fuels for energy production by 60% by 2025. The National Renewable Energy Laboratory (NREL) adds that the U.S. Virgin Islands also ...

The adjoining solar facilities will provide a total of 140 MW solar capacity. The solar-plus-storage system is expected to fulfill 30% of the islands' energy consumption needs. According to the Department of Energy (DOE), ...

The month of December in U.S. Virgin Islands experiences rapidly decreasing cloud cover, with the percentage of time that the sky is overcast or mostly cloudy decreasing from 33% to 20%. The clearest day of the month is December 31, with clear, mostly clear, or partly cloudy conditions 80% of the time. For reference, on May 29, the cloudiest day of the year, the chance of ...

CHARLOTTE AMALIE -- As part of his commitment to transitioning the U.S. Virgin Islands to renewable energy sources, Governor Albert Bryan and the Virgin Islands Energy Office (VIEO) will begin taking applications tomorrow for the Solar+ Financing Pilot Program (SPF). ... Selected applicants will receive a 15-year loan with an annual interest ...

Context With the growing intensity of storms in the Caribbean, resilient energy infrastructure now plays a crucial role in the Caribbean's transition to a reliable, clean power system. The Donoe solar farm in St. Thomas, U.S. Virgin Islands was originally built in 2015 but sustained significant damage during the 2017 hurricane season. In 2019, BMR [...]
