

The U.S. Environmental Protection Agency will send \$62.45 million to the territory for residential community solar and power storage projects, federal officials announced Monday. Awarded through the Solar for All grant ...

The Donoe solar farm in St. Thomas, U.S Virgin Islands was originally built in 2015 but sustained significant damage during the 2017 hurricane season. In 2019, BMR Energy agreed to acquire the site of the original solar farm and closed on the purchase in 2020. In 2021, the team began constructing a new solar farm with significant technology ...

Doug White, Co-Chair of ESRAG's Climate Solutions Task Force, is mobilizing his knowledge and networks to help relieve the energy burden and increase the resilience of the U.S. Virgin Islands. Working through his Rotary club, the Solarize St. Thomas "Share the Sun" program is making solar power affordable to LMI households including renters.

The adjoining solar facilities will provide a total of 140 MW solar capacity. The solar-plus-storage system is expected to fulfill 30% of the islands' energy consumption needs. According to the Department of Energy (DOE), ...

The VIEO believes that the new Virgin Islands Solar for All Program has the power to transform the territory's residential energy landscape, addressing residents' high electricity costs while...

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in U.S. Virgin Islands varies throughout the year. The wetter season lasts 7.0 months, from May 1 to November 30, with a greater than 25% chance of a given day being a wet day. The month with the most wet days in U.S. Virgin Islands is September, with an average of 11.5 ...

The Virgin Islands Energy Office received a \$62.45 million grant from the Environmental Protection Agency for solar power programs. (Source file photo) The U.S. Environmental Protection Agency will send \$62.45 million to the territory for residential community solar and power storage projects, federal officials announced Monday.

(Photo courtesy Facebook) The U.S. Environmental Protection Agency announced this week that the Virgin Islands Energy Office (VIEO) was selected to receive approximately \$62.5 million to develop solar programs -- the highest amount available to the territory in this competitive grant program.

The listed kilowatts installed by each company in the Virgin Islands could come from installations in all markets (residential, commercial, utility) but only within Virgin Islands territory lines. The companies below

are a segmented portion of the overall 2019 Top Solar Contractors list, organized by kilowatts (DC) installed in 2018.

The month of December in U.S. Virgin Islands experiences rapidly decreasing cloud cover, with the percentage of time that the sky is overcast or mostly cloudy decreasing from 33% to 20%.. The clearest day of the month is December 31, with clear, mostly clear, or partly cloudy conditions 80% of the time.. For reference, on May 29, the cloudiest day of the year, the chance of ...
