

Serbia holds some of Europe's largest reserves of lithium - a key component of batteries used to power electric vehicles and other applications. Through EU's Critical Raw Materials Act, the European Commission is ...

The former UniEnergy Technologies office in Mukilteo, Wash. Taxpayers spent \$15 million on research to build a breakthrough battery. Then the U.S. government gave it to China. Jovelle Tamayo for NPR

the new unienergy battery for engines with the Stop& Start system. "Sealed" battery with double thermo-welded lid and labyrinth. The technology used for the production of the plates and active material and the type of separators assure performance for thousands of micro cycles, also at high depths of discharge. Neue Batterien von unienergy

Flow battery builder UniEnergy Technologies (UET) has "turned over the keys" to Avista Utilities for the largest capacity flow battery in North America or the EU, according to Russ Weed, VP at UET ...

UniEnergy Technologies (UET)'s strategic partner and affiliate Rongke Power will deploy the largest battery, rated at 800 MWh. UET and Rongke Power have worked closely together since 2012 to develop large-scale Vanadium Flow Batteries (VFB's) to meet the challenges of grid modernization, renewable penetration, and resiliency. The VFB battery will provide peak ...

ElevenEs has developed its own lithium iron phosphate (LFP) technology for batteries for electric cars, buses, trucks, forklifts, other industrial vehicles and energy storage systems. Backed by EU funds, it will build ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy storage systems. This ambitious initiative will encompass areas in the cities of Zajecar and Leskovac, as well as the municipalities of Bujanovac, Lebane, Negotin, and Odzaci.

It's the wet-cell battery, but now with extremely advanced chemistry and designed, engineered and built to deliver multi-megawatt capacities and with plenty of smarts inside. One of the world's top suppliers of such energy-storage solutions is a small but growing company founded in 2012 called UniEnergy Technologies (UET).

Batteries Included: Technicians (top) from the author's company, UniEnergy Technologies, in Mukilteo, Wash., work on a battery management system that monitors and controls the performance of a ...

Snohomish County PUD received more than \$10 million for clean-energy projects, including the one using UniEnergy's massive vanadium-flow battery. The project, dubbed MESA 2, is in the testing ...

According to official announcements, Serbia is ready to invest significant funds in the gigafactory for the production of lithium-ion accumulator batteries (LIB), and later also electric cars. With the optimistic estimate that 100,000 electric cars with a 50 kWh battery will be produced annually, this would increase carbon dioxide emissions by ...

The answer will soon be China. A battery that will help with grid stability in what is known as the Dalian peninsula in Northern China. The companies behind the large battery are UniEnergy Technologies and Rongke Power. The battery will be capable of a whopping 800MWh. The battery is not a lithium-ion battery but rather a vanadium flow battery.

MUKILTEO, Wash., July 12, 2016 /PRNewswire-USNewswire/ -- UniEnergy Technologies (UET), the leading flow battery provider in North America and Europe, will supply a 100kW/400kWh ReFlex(TM) energy ...

Bulgaria plans to invest in renewable energy, energy efficiency, nuclear energy and natural gas in order to ensure the country's energy security. This includes introduction of 2.65 GW in renewable capacity by 2030, mostly in solar power plants. Bulgarian Ministry of Energy revealed the country's draft Sustainable Energy Development Strategy until 2030 with a view

A 1MW battery with maximum energy capacity of 4MWh was commissioned last week by UniEnergy Technologies, for utility company Avista Utilities in the city of Pullman, Washington. The battery system, branded "Uni.System" by the manufacturer, will provide multiple services, including load shifting, frequency regulation of the grid and conservative ...

Unienergy batteries range. SHP AGM. Sealed gas-recombination battery with valve design, for vehicles equipped with... SHP EFB. Battery produced in line with the DIN standard, for vehicles... SHP. Reliability and high performance to provide maximum power on traditional... HP. Ca/Ca Technology, Maintenance free. ...
