The United Arab Emirates has committed to the global carbon agenda and plans to reduce carbon dioxide emissions by 30% by 2030. In 2017, the United Arab Emirates also launched the Energy Strategy 2050, which aims to diversify current energy sources and double the country's use of clean energy sources by 2050.

Score change: The score improved from 1 to 2 because broadband internet has become increasingly affordable in recent years. While prices are among the highest in the region, broadband access is affordable for most users given the country's high per capita income, 1 which the World Bank estimated to be \$87,300 in 2022. 2 The 2023 annual survey by the UK ...
