August of 2022 FreeVolt installed a solar system on the roof of our home. Apparently they did not follow thru with getting the \*\*\*\* approved&quot; and therefore we have had no final inspection.

A company called Freevolt is touting its PVGraf panels; claims they are a & quot;hybrid cell technology - combining thin film tech with crystalline silicon tech - to produce 50% higher efficiency modules.& quot; Sounds like they are claiming they are using tandem cells, which I have not seen on any commercial PV anywhere.
