Also looking for Victron-compatible trickle wind charging. While waiting for Victron to get this done, here is just a tip: setting up a remote controlled relay on a loop that puts your whole site online for 30 minutes or so every 24 hours when you are not there is perhaps an option. So not even 17W but close to zero when needed.

The Victron Energy Centaur battery charger is designed to be a true world-wide product, thanks to Universal compliance and input/output specifications. The Victron Centaur meets the requirements of both CE for European Countries and UL for the United States, and features auto-ranging input covering 90-265 Vac 50/60Hz input meaning it can be ...
