

What size boiler does Verdo energy offer?

We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt. Verdo Energy has many years of experience within biomass conversion, and the company converted its own CHP plant in 2009. At the same time, we supply hot-water boilers in the 1-20MW capacity range for production of heat and steam.

What is Verdo Energy's decentralized waste to energy concept?

Verdo Energy's decentralized Waste to Energy concept is focused on handling the waste where it is generated and converting the energy from waste into thermal or electrical energy used for private industries or local municipalities with a need of energy. We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt.

Who are Verdo's specialists?

No task is too small, and there is no challenge too great when you ask Verdo's specialists for advice. We have many years of experience establishing, operating and managing one of Denmark's most efficient and eco-friendly CHP plants. We work with a broad range of CHP plants, industrial companies and consultants.

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in British Indian Ocean Territory varies significantly throughout the year. The wetter season lasts 6.1 months, from September 19 to March 24, with a greater than 49% chance of a given day being a wet day. The month with the most wet days in British Indian Ocean Territory ...
