

To achieve high utilization rate and efficiency, Ideal divided the whole production chain into separate but closely united automated production sectors. Each pv module has to pass 3 rounds of EL test: pre-lamination, post lamination, and before packing. Ideal production lines equipped with HALM photoelectric product performance tester.

**HYBRID GRID SOLAR SYSTEM.** Our commercial energy storage solutions offer from 30kW to 300kW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.

Ideal Solar produces and commercializes a wide variety of photovoltaics modules with high performance and quality. Both monocrystalline and polycrystalline with power outputs ranging from 5W to 350W adapting our product range to meet market demands allow us to provide our customers with a broader range of solutions.
