

Which country controls Western Sahara?

Morocco controls territory to the west of the berm (border wall) while the Sahrawi Republic controls territory to the east (see map on right). Western Sahara was partitioned between Morocco and Mauritania in April 1976, with Morocco acquiring the northern two-thirds of the territory.

Is Western Sahara a self governing territory?

Previously occupied by Spain as the Spanish Sahara until 1975, Western Sahara has been on the United Nations list of non-self-governing territories since 1963 after a Moroccan demand. [clarification needed] In 1965, the United Nations General Assembly adopted a resolution on Western Sahara, asking Spain to decolonize the territory.

Does Western Sahara have phosphate reserves?

Aside from its rich fishing waters and phosphate reserves, Western Sahara has few natural resources and lacks sufficient rainfall and freshwater resources for most agricultural activities. Western Sahara's much-touted phosphate reserves are relatively unimportant, representing less than two percent of proven phosphate reserves in Morocco.

What is the economy of Western Sahara?

Western Sahara's economy is based almost entirely on fishing, which employs two-thirds of its workforce, with mining, agriculture and tourism providing modest additional income. Most food for the urban population comes from Morocco.

What is the Moroccan government name for Western Sahara?

The official Moroccan government name for Western Sahara is the "Southern Provinces", consisting of the Rio de Oro and Saguia el-Hamra regions. The portion not under the control of the Moroccan government is the area that lies between the border wall and the actual border with Algeria.
