

Will VCIG acquire a solar farm in North Macedonia?

VCIG Global has engaged the consulting firm OTB Solutions Dooel Skopje in North Macedonia to identify and secure additional solar farm opportunities. "This is the beginning of a series of solar farm acquisitions that VCIG will undertake and looking ahead for more acquisition opportunities across Southeast Asia and Europe.

Did North Macedonia change its energy regulations?

There were no major energy legislative changes, but North Macedonia continued to harmonize its energy regulations with the EU Energy Community's Third Energy Package (TEP). North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s.

Does North Macedonia need a coal phase-out?

Even though the country has historically been dependent on lignite coal mining for around 30% and gas imports for an additional 15% of its electricity production, it has nonetheless set very ambitious goals for decarbonization. As part of the Powering Past Coal Alliance, North Macedonia has committed to a coal phase-out by 2027.

Is Norway on its way to achieving solar power goals?

And the country is well on its way to achieving these goals. The Oslomej solar park, built on a former lignite open pit mining site, is already partly operational and will have an installed capacity of 120 MW when fully completed. There are also a series of auctions for solar power investments to ensure more solar PV projects in the pipeline.

Is North Macedonia a good candidate for smart siting?

Seeing the country's forward-thinking approach to renewables and natural beauty, The Nature Conservancy (TNC) identified North Macedonia as a prime candidate for the implementation of the smart siting approach currently being undertaken in Croatia and Serbia as well.

Does North Macedonia have a decarbonization goal?

Despite historically relying on lignite coal mining for approximately 30% of its electricity production and gas imports for an additional 15%, North Macedonia has set ambitious decarbonization goals.

In top-mounted or front-mounted outdoor blinds, the design of the cassette is very important. So we pay a lot of attention to that. Our advisers will always propose the most suitable cassette for you. And thanks to the straight or rounded ...

the energy sector 53% North Macedonia has considerably expanded its renewable energy capacities through a self-consumption scheme and has progressed on energy efficiency with a focus on finalising the amendments of the Energy Efficiency Law. North Macedonia should adopt the Renewable Energy Law and the amending the Energy Efficiency Law.

The Luno housing is compact and therefore takes up very little space on your facade. Its very rounded design also differs from the sleeker shapes of the Lumisol, Linasol and Squaro awnings. Luno has an elegant appearance and is ...

North Macedonia: Energy Transition and Democracy Srgjan Vidoeski MA in Global Energy Transition and Governance (CIFE, France) MA in Democracy and Human Rights (European Regional Master, BiH) 2021, Sarajevo . 2 Abstract In its latest energy strategy, adopted at the beginning of 2020, North Macedonia projects complete coal and

The front-mounted roller shutters with Fusion louvres are the ideal solution for renovation projects as well as new construction projects. This is because front-mounted roller shutters are installed on the facade or inside your window aperture, eliminating the need for building work or channelling. This also means the roller shutter casing is not visible on the interior, eliminating ...
