Contact ZPA Smart Energy, the leading Czech manufacturer of metering and control technology. Thanks to acquired knowledge, a modern development centre and conscientious partners who honour the principles of our company, we are able to produce products according to the specific needs of our clients.

Meter data security and communication channel security are becoming an absolutely key feature of modern smart meters. ZPA smart meters have the ability to run an asymmetric encryption mechanism on each communication channel, in which keys are generated using the elliptic curve method. This methodology is very robust.

ZPA Smart Meter erm&#246;glichen die Messung und Aufzeichnung von Versorgungsnetz-Variablen, speichern diese Daten in beliebiger Granularit&#228;t und &#252;bermitteln sie &#252;ber eine Vielzahl von Kommunikationsmodulen sowohl an den Netzbetreiber als auch an den Endkunden.

After graduation he joined ABB as a quality engineer, and later as a manager of corporate process optimisation. In 2005, he joined ZPA CZ, spol. s.r.o. as head of the quality management department. In 2007 and 2008 he worked in the automotive industry, and after returning to ZPA Smart Energy in 2009 he was appointed Quality Director.
