The term "solar battery" refers to a battery storage cell that can be integrated into residential or commercial solar systems. These batteries store excess energy that would otherwise be exported back to the grid. Utilising energy from your solar system instead of the grid not only enhances financial savings but also shortens the break-even period for your investment.

Solar battery prices in Kenya vary based on different factors. There are two main categories of batteries; Lead-Acid Solar Batteries and Lithium-Ion Batteries. Lead-Acid Solar Batteries range from Ksh 15,000 to Ksh 70,000. Lithium-Ion Solar Batteries range from Ksh 70,000 to Ksh 300,000. As Kenya continues to embrace solar energy, more homeowners and businesses are ...

The solar battery price has decreased over the past few years, but they are still expensive - and most people don't have that kind of money just lying around. Lead-acid batteries, which are commonly used in off-grid solar systems, are generally less expensive than lithium-ion batteries. Depending on the capacity, a lead-acid battery can ...
